

# PIP – Personal Independence Payment (Post MARCH 2017)

The changes to the enhanced mobility rate made in MARCH 2017 were judged by the High Court decision in Dec 2017 to be unlawful and no longer apply. DWP issued statement not to challenge and will reassess those affected with applicable rate backdated.

### PIP has two parts; Daily living and Mobility Components

A person may qualify for one or both parts of Personal Independence Payment. The award is based on how a health condition or disability affects "everyday activities".

For each part of the two parts of Personal Independence Payment there is a list of activities.

Daily Living part activities include:

- 1. Preparing food
- 2. Eating and drinking
- 3. Managing your treatments
- 4. Washing and bathing
- 5. Managing your toilet needs
- 6. Dressing and undressing
- 7. Communicating
- 8. Reading
- 9. Mixing with other people
- 10. Making decisions about money.

### Mobility activities include:

- 11. Going out, and
- 12. Moving around.

For each activity, there's a list of 'descriptors'. Descriptors are sentences which describe how much support, and the type of support, needed to do the activity. Each descriptor has a point score. In order to qualify for PIP you will have to score a certain number of points in relation to the relevant activities/descriptors.

8 points – Standard rate (which is the same as the middle rate of DLA Care component)

12 points— Enhanced rate (which is the same as the higher rate of DLA Care component)

A person is entitled to the daily living component at the standard rate if;

- 1 (a) the person's ability to carry out daily living activities is limited by the person's physical or mental condition; and
- 1 (b) the person meets the required period condition.

A person is entitled to the daily living component at the enhanced rate if—

2 (a) the person's ability to carry out daily living activities is severely limited by the person's physical or mental condition

#### **RELIABLY**

For a descriptor to apply you must be able to reliably complete the activity as described in the descriptor. 'Reliably' means whether they can do so:

- Safely –the activity must be unlikely to cause harm to you or to another person.
- To a necessary and appropriate standard given the nature of the activity.
- Repeatedly as often as is reasonably required.
- In a timely manner in a reasonable time period.

If you have a fluctuating condition the most appropriate descriptor will be the one which is likely to apply for the greatest proportion of that time.

**Assistance'** means physical help from another person with completing some part of an activity. It does not include giving verbal instructions, which counts as 'prompting'.

'Supervision' means the continuous presence of another person throughout the activity to ensure your safety. The risk does not need to be caused by one of the activities; it is enough that you need continuous supervision to carry out the activity reliably

'Prompting' means that another person needs to remind or encourage you to carry out an activity, or explain how to do it. The definition does not say that the person prompting you must be in your presence, so prompting by telephone can arguably

allow you to score points in the assessment, if it is needed for you to carry out an activity.

#### Aids and appliances

You score points for most of the daily living activities if you do not need help from another person, but can only manage the activity using an 'aid or appliance'

#### DAILY LIVING ACTIVITIES/TASKS

### 1. Preparing food.

- a. Can prepare and cook a simple meal unaided. 0 points.
- b. Needs to use an aid or appliance to be able to either prepare or cook a simple meal. 2 points.
